## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 6 "has a transverse laser radiation intensity distribution with respect to the direction of advance movement" is not a clear description. The claim limitation appears to rely on specification Page 12, lines 8-11. The claim language does not accurately follow the description in the specification.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to

consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 1-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Applicant's Admitted Prior Art (AAPA) in view of JP362159344A. AAPA describes (Specification Pages 1-4) well known cutting of foils comprising a carrier film and a decorative layer such as a lacquer layer. AAPA describes prior art comprising plural cutting devices, such as DE 34 15 015 C2 which comprises a laser scratching device and a cutting saw. JP362159344A describes (Abstract and Figure 2) a laser and blade apparatus which is used for laser removal of a thin film prior to cutting the base film with blades 13, 14. The use of the JP362159344A apparatus and method in AAPA foil cutting would have been obvious at the time applicant's invention was made to a person having ordinary skill in the art because the laser etch prior to the mechanical saw allows for processing which does not generate cracks.

Claims 10-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Applicant's Admitted Prior Art (AAPA) in view of JP362159344A as applied to claim 9 above, and further in view of USPN 6,417,483 to Sator. Sator describes (Abstract) laser deflection elements and describes (column 4, lines 37-49) "speed should be adjusted to the laser power". These apparatus features would have been obvious at the time applicant's invention was made to a person having ordinary skill in the art in order to provide automated operation with a particular workpiece.

***Response to Arguments***

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
